1. PURPOSE AND SCOPE

To establish, implement, maintain and continually improve the participation and consultation of workers by setting a criteria for all OH&S issues. This procedure is applicable to all functions of Rama Construction including subcontractors.

2. INTRODUCTION

A key factor for the success of an OH&S management system is to ensure consultation and participation of workers with sufficient allocation of time and resources. Rama is committed to engage its workers in the OH&S management system.

3. DEFINITIONS

Worker-the person performing work or work related activities that are under the control of the organization, this is at all levels and includes subcontractors.

Participation-involvement in decision making

Consultation-seeking views before making decision

4. CRITERIA

4.1. MANAGEMENT RESPONSIBILITY

Managements are responsible to:

- Determine needs and expectations of workers and other interested parties
- Communicating internally and externally the importance of effective OH&S management system and conforming to the OH&S management system requirements.
- Directing and supporting persons to contribute to the effectiveness of the OH&S management system.
- Supporting other relevant management roles to the effectiveness of the OH&S management system.
- Developing, leading and promoting a culture in the organization that supports the intended outcomes of the OH&S management system.
- Protect workers from reprisal when reporting incidents, hazards, risks and opportunities.

- Ensures that the organization establishes and implements a process (es) for consultation and participation of workers.
- Ensure that the necessary resources needed to establish, implement, maintain and improve the OH&S MS are available.
- Support the establishment and functioning of health and safety committee.
- Ensures that the responsibilities and authorities for relevant roles within the OH& S management system are assigned and communicated at all levels within the organization and maintained as documented information.
- Ensures that obstacles or barriers to participation are removed and those that cannot be removed are minimized.
- Recognize the provision of training at no cost to workers and the provision of training during working hours.
- Determine the necessary competence of workers that affect or can affect its OH &S performance
- Ensures that workers are competent (including the ability to identify hazards) on the basis of appropriate education, training or experience.
- Ensures that workers are aware of the OH&S policy and objectives.
- Promote continual improvement.

4.2. CONSULTATION AND PARTICIPATION OF WORKERS

Rama has established, implemented and maintained a process for consultation and participation of workers at all applicable levels and functions in the development, planning, implementation, performance evaluation and action for improvement. To facilitate the process of workers consultation and participation, Rama has:

- Provided mechanisms, time, training and resources necessary for consultation and participation.
- Provided timely access to clear, understandable and relevant information about the OH&S management system.
- Determined and removed obstacles or barriers (include failure to respond to worker inputs or suggestions, language or literacy barriers, reprisals or threats of reprisals and policies or practices that discourage or penalize) to participation
- and minimize those that cannot be removed.

4.2.1. PARTICIPATION:

Employees /Workers are participated in:

- Determining the mechanisms for their consultation and participation.
- Identifying hazards and assessing risks and opportunities.
- Determining actions to eliminate hazards and reduce OH&S risks.
- Determining competence requirements, training needs, training and evaluating training.
- Determining what needs to be communicated and how this will be done.
- Determining control measures and their effective implementation and use.
- Investigating incidents and nonconformities and determining corrective actions.

4.2.2. CONSULTATION ON HEALTH AND SAFETY MATTERS

Workers consultation is sought in the following mentioned areas:-

- Determining the needs and expectations of interested parties.
- Establishing the OH& S policy.
- Assigning organizational roles, responsibilities and authorities as applicable.
- Determining how to fulfil legal requirements and other requirement.
- Establishing OH&S objectives and planning to achieve them.
- Determining applicable controls for outsourcing, procurement and contractor.
- Determining what needs to be monitored, measured and evaluated.
- Planning, establishing, implementing and maintaining an audit programme(s).

4.2.3. CONSULTATION AND PARTICIPATION MECHANISMS

- Periodic meetings with senior leaders of processes including OH&S issues.
- Site tours will be conducted in a monthly basis.
- Open door policy to talk to a safety representative.
- Communication – Notice boards, newsletters, email, etc.
- Focused team meetings and / or workshops.
- Involve directly in the process of hazard identification and risk assessment.
- Review of existing arrangements and continual improvement projects.

Title	WORKER PARTICIPATION AND CONSULTATION CRITERIA DOCUMENT	Revision No. 00	Page 5 of 5

- Suggestion schemes – formal and informal, along with communication on whether action is to be taken.
- Establishing a safety committee consisting of managerial and non-managerial employees.

4.2.4. CRITERIA FOR SELECTING WORKER REPRESENTATIVES

Due to large size of the organization workers participation and consultation will be performed through selected worker representatives. They will be selected based on the following criteria:

- Interest of the person to participate in OH&S issues.
- Minimum educational background of 10th grade and good knowledge in OH&S issues.
- Have good behavior and communication capacity.
- At least one person should be participated from each department.
- For projects for every 100 employees 1 representative will be selected.
- Works representatives from the project site will be selected based on the recommendation from the project managers and workers in the project.
- EHS coordinator will follow and facilitate their consultation and participation.
